

Accessibility Plan

Al-Falah Primary School

Reviewed	23.11.17
Review Date	November 2020

At Al-Falah Primary School, our values reflect our commitment to a school where there are high expectations of everyone. Children are provided with high quality learning opportunities so that each child attains and achieves all that they are able to. Everyone in our school is important and included. We promote an ethos of care and trust where every member of our school community feels that they truly belong and are valued. We work hard to ensure there are no invisible children here, recognising everyone's uniqueness and success. We recognise learning in all its forms and are committed to nurturing lifelong learners. We are committed to improving children's confidence and self-esteem. We know that safe and happy children achieve.

This Accessibility Plan is drawn up in compliance with current legislation and requirements as specified in Schedule 10, relating to Disability, of the Equality Act 2010. School Governors are accountable for ensuring the implementation, review and reporting of progress of the Accessibility Plan over a prescribed period.

According to the Equality Act 2010 a person has a disability if:

- (a) He or she has a physical or mental impairment, and
- (b) The impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

Aims and Objectives:

Al-Falah Primary School is committed to working hard in order to provide an environment that enables full curriculum access that values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to taking positive action in the spirit of the Equality Act 2010 with regard to disability and to developing a culture of inclusion, support and awareness within the school.

We will endeavor to ensure that students and staff with disabilities will have a range of support services, appropriate to their needs that are available to their non-disabled peers. Where existing services cannot be made available, the school will endeavor to make available reasonable, alternative services and arrangements.

We aim to improve and maintain access to the physical environment of the school, adding specialist facilities where necessary - this covers improvements to the

physical environment of the school and physical aids to access education within a reasonable time frame:

Teachers and other members of staff will continue to maintain and improve on their teaching and learning strategies (CPD) to make the delivery of lessons as inclusive as reasonably possible, and where appropriate allow adaptation to accommodate disabled students' individual requirements.

Areas of planning responsibilities:

Increasing access for disabled pupils to the school curriculum (this includes teaching and learning and the wider curriculum of the school such as participation in afterschool clubs, leisure and cultural activities or school visits)

Improving access to the physical environment of schools (this includes improvements to the physical environment of the school and physical aids to access education)

Improving the delivery of written information to disabled pupils (this will include planning to make written information that is normally provided by the school to its pupils available to disabled pupils. The information should take account of pupils' disabilities and pupils' and parents' preferred formats and be made available within a reasonable time frame

Current range of known disabilities:

The school has no children or staff with any known range of disabilities including moderate and specific learning disabilities. There are also no parents known to have any disability or hearing impairment.

However, school has a mobile ramp in place to allow access for disable people when it's required. The Accessibility Plan will be published on the school website.

It is a requirement that the school's accessibility plan is resourced, implemented, reviewed and revised as necessary and reported on annually. Attached is a set of action plans showing how the school will address the priorities identified in the plan.

The priorities for the Accessibility Plan for our school were identified by:

- The Governing BodyHead Teacher
- Safeguarding Lead Officer
- SLT
- The Chair
