At Al-Falah Primary School, our values reflect our commitment to a school where there are high expectations of everyone. Children are provided with high-quality learning opportunities so that each child attains and achieves all that they are able to. Everyone in our school is important and included. We promote an ethos of care and trust where every member of our school community feels that they truly belong and are valued. We work hard to ensure there are no invisible children here, recognising everyone's uniqueness and success. We recognise learning in all its forms and are committed to nurturing lifelong learners. We are committed to improving children's confidence and self-esteem. We know that safe and happy children succeed.

This accessibility plan is drawn up in compliance with current legislation and requirements as specified in Schedule 10 (relating to disability) of the Equality Act 2010. School governors are accountable for ensuring the implementation, review, and reporting of progress of the accessibility plan over a prescribed period.

According to the Equality Act 2010, a person has a disability if:

- He or she has a physical or mental impairment, and
- The impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

Aims and Objectives:

Al-Falah Primary School is committed to working hard in order to provide an environment that enables full curriculum access and values and includes all pupils, staff, parents, and visitors, regardless of their education, physical, sensory, social, spiritual, emotional, and cultural needs. We are committed to taking positive action in the spirit of the Equality Act 2010 with regard to disability and to developing a culture of inclusion, support, and awareness within the school.

We will endeavour to ensure that students and staff with disabilities will have access to a range of support services appropriate to their needs that are available to their non-disabled peers. Where existing services cannot be made available, the school will endeavour to make available reasonable, alternative services and arrangements.

We aim to improve and maintain access to the physical environment of the school, adding specialist facilities where necessary. This covers improvements to the physical environment of the school and physical aids to access education within a reasonable time frame.

Teachers and other members of staff will continue to maintain and improve their teaching and learning strategies (CPD) to make the delivery of lessons as inclusive as reasonably possible and, where appropriate, allow adaptation to accommodate disabled students' individual requirements.

Areas of planning responsibilities:

Increasing access for disabled pupils to the school curriculum (this includes teaching and learning and the wider curriculum of the school, such as participation in after-school clubs, leisure and cultural activities, or school visits).

Improving access to the physical environment of schools (this includes improvements to the physical environment of the school and physical aids to access education).

Improving the delivery of written information to disabled pupils (this will include planning to make written information that is normally provided by the school to its pupils available to disabled pupils). The information should take account of pupils' disabilities and pupils' and parents' preferred formats and be made available within a reasonable time frame.

current range of known disabilities:

The school has no children or staff with any known range of disabilities including moderate and specific learning disabilities. There are also no parents known to have any disability or hearing impairment.

However, the school has a mobile ramp in place to allow access for disabled people when it's required. The accessibility plan will be published on the school website.

It is a requirement that the school's accessibility plan be resourced, implemented, reviewed and revised as necessary, and reported on annually. Attached is a set of action plans showing how the school will address the priorities identified in the plan.

Al Falah Primary School is committed to complying with the Disability Discrimination Act 1995 (DDA), the Disability Discrimination Act: 2005 and the Special Educational Needs and Disability Act 2001 (SENDA)

- Maximising accessibility to the school's services and activities for staff, pupils, parents, visitors and prospective staff and pupils with disabilities, and to make sure that no one is treated inferior on the grounds of disability.
- Developing a culture of inclusion in which people feel free to disclose a disability, should they wish to do so, and to discuss reasonable adjustment
- Monitoring in order to promote equal participation in the services and activities offered by the school. In adherence to the Data Protection Act 1998 (DPA 1998), such information shall be passed on only with consent and where there is legitimate reason to do so.
- Reviewing, monitoring and revising, as appropriate, all school systems, procedures, facilities, services and buildings in compliance with the DDA and SENDA.
- Creating, maintaining and providing information about services, support and facilities available for staff, pupils, parents, visitors and prospective staff and pupils with disabilities.

For the purpose of this policy, the term "disability" has the same meaning as that given in the DDA and SENDA:

'A physical or mental impairment which has a substantial and long-term adverse effect on your ability to carry out normal day-to-day activities'

This includes, but is not limited to: sensory impairments, learning disabilities, mental illness, clinically recognised severe disfigurements, cancer, HIV/Aids, progressive conditions even at an early stage, conditions that are characterised by a number of cumulative effects such as pain or fatigue and a past history of disability.

We aim to be an inclusive school. We will ensure that pupils and visitors with disabilities have the same opportunities as non-disabled pupils to benefit from the education and services our school provides.

The school must make reasonable adjustments to ensure that pupils and members of staff and of the public are not disadvantaged. We aim to do so in a number of ways within the limited resources available, including improving the physical environment such as:
