

Year 5 Summer Term Curriculum Overview

During the first unit, children will study a complete short story set in a Faraway place with the aim of creating vivid word pictures, they will be looking at fiction books: cloud tea monkeys and the mysterious traveller by Mal Preet

During the second unit, students will explore the many different ways in which the written and spoken word can be used to persuade others. They will then create two brochures .

In the last unit, the children will be focusing on argument and debate with them constructing an argument text and participating in a class debate convention.

This term children will learn to find the decimal equivalents of fractions, solve problems involving ratio and proportion by scaling up a relationship, use division and multiplication to solve word problems involving fractions. They will also show percentages by using concrete equipment and diagrams.

During the second term, children will learn to answer questions where measurements can be used to work out the answer. They plan how to solve the problems, carry out the investigation and record their results as frequency tables, bar-line charts or bar charts. They construct and analyse line graphs, and describe what they show and how they can answer a given question. They collect data to answer other questions and represent their findings on line graphs, explaining what their results mean.

In this term children learn about living things and their habitats, they will focus on life cycles and reproductive processes of plants and animals.

In the second unit, children learn that sounds are produced by vibrations and that these vibrations travel from the source through a variety of materials.

In this unit children develop the range and quality of their skills and understanding. They learn how to play the different roles of bowler, wicket-keeper, backstop, fielder and batter. they will also develop their tennis skills .

In this unit children learn about the reasons look at the travel and trade in ancient times looking at the spice routes and the silk roads that connected ancient cities. they will also look at the rise and fall of the great city of Baghdad during the early Islamic period.

In this unit children will learn how to use Microsoft Publisher and create flyers and leaflets. They will also learn how to develop apps using appshed and look at coding.

In this unit, children learn about the important role of the media (local and national newspapers, magazines, television, film, radio and the internet) in communicating topical local and national news and information to the public.

In this unit children explore how stories have been represented in textiles in different times and cultures. They investigate and use a range of materials, techniques and textile processes to create surface patterns and textures and other visual and sound effects.
